Methods, Standards and Tools Toward EU Environmental Values: Challenges on the Road to EU

We are pleased to invite you to *The Eleventh Regional Conference "Environment to Europe" EnE15 – ENV.net*, which will be held on **June 5th 2015 in the Belgrade** (Chamber of Commerce and Industry of Serbia). **Conference is UNEP WED event, supporting EU Integration process** through project "Development of the ENV.net in West Balkans and Turkey: giving citizens a voice to influence the environmental process reforms for closer EU integration".

Environmental Ambassadors for Sustainable Development in partnership with **Chamber of Commerce and Industry of Serbia** organize for *The Eleventh Regional Conference "Environment to Europe" EnE15 – ENV.net*. Thematic areas this year are **Methods, Standards and Tools toward EU Environmental Values: Challenges on the Road to EU with main focus on Horizontal legislation EU as a providing tools to achieve environmental objectives**. Horizontal legislation concerns matters which cut across different areas rather than a specific sector, and are more procedural, aiming to improve legislation and decision-making. Different issues are considered as the issues need the horizontal (cross-cutting) approach, like: Public Involvement in Environmental Decision-Making, Environmental Measures on Production, Planning and Management, IPPC-Directive, Environmental Liability, Environmental Impact Assessment, Integrated Product Policy, New Approach and Standardisation, etc.

The Conference is an opportunity for institutions, organizations and experts to present their research and exchange viewpoints regarding methods, standards and tools toward EU environmental values and challenges on the road to EU.

We firmly believe that your scientific/research results/views and experience will substantially help a better understanding of these fields. Being aware of the necessity of a close cooperation between science and practice, we invite you to take active participation in the Conference Environment to
